Native

# Dennis Terry

## Full Stack Developer

Versatile full stack developer with 5+ years of experience in web development, front-end development, back-end development and DevOps.

Proficient in front-end development with various frameworks including React.js, Vue.js, Laravel, Angular.js and Laravel.

Expertise in back-end development with Go, Python, Java, Node.js.

Passionate about writing clean, maintainable code and eager to leverage skills in a new environment and grow as a competent developer.

## Experience

### Full Stack Developer

**SeeResponse** *Toronto, Canada*

Sep 2020 - Nov 2022

Worked with a team of developers to create an e-commerce platform that could scale up to 100K daily visitors.

Built and maintained the companies website with web technologies using MERN, LAMP and so on.

Implemented automated testing tools for continuous integration and deployment processes (CI/CD) in collaboration with DevOps engineers.

Collaborated with product managers on new features and functionality before deploying them to production environments.

Spearheaded efforts to improve performance by reducing page load times from 4 seconds to 1 second.

### Junior Full Stack Developer

**Hyerlink InfoSystem**

*Block C, 106/B Ganesh Meridian Sarkhej - Gandhinagar Highway Opp Gujarat high court, Ahmedabad, Gujarat 380061, India*

Nov 2017 - May 2020

Worked with a team of developers to create an e-commerce platform using Node.js, Express.js and React.js.

Implemented unit tests for all modules in the application stack to ensure code quality.

Created RESTful APIs that were consumed by frontend applications written in Angular.js.

Developed and maintained a web application that manages the data for over 1,000 customers in an agile environment with continuous integration and delivery.

Built a RESTful API using Django framework which is used by mobile applications developed by our team.

Designed and implemented microservices architecture to improve scalability of the system as well as maintainability of the codebase.

### Junior Web Developer

**Netclues** *Mississauga, Canada*

Oct 2016 - Aug 2017

Developed and maintained websites using HTML, CSS, and JavaScript.

Provided front-end website development using React.js, Vue.js, Angular.js and other view frameworks.

Worked with senior developers to create dynamic and responsive user interfaces.

Created and ran unit tests to ensure code quality prior to deployment.

## Education

### B.S. in Computer Science

**University of British Columbia** *Vancouver, BC V6T 1Z4, Canada*

2012 - 2016
